Dear Sir/Madam,

### **A1307 Cambridge South East Transport (CSET) - Works on Linton High Street**

I am writing to you to let you know that we will be starting work to improve the junction from Linton High Street on to the A1307 Cambridge Road starting on 10 February 2020.

We will be installing a new set of traffic lights at the junction to help road users travelling from Linton High Street onto the A1307 Cambridge Road. These new traffic lights will control road traffic and the pedestrian crossing and aim to make the junction safer for all road users.

### **A1307/ Linton High Street Junction**

### **When will the work to be carried out?**

The construction will start on 10 February 2020 and is expected to last just over six weeks, depending on weather conditions. Most of the work will be undertaken during the day between 9:30am and 3:30pm on weekdays only.

However, due to the amount of traffic during the day, there will be a need for some of the work be undertaken overnight. We expect that the night time work will be over four or five nights only. While the work is carried out we will need to close a section of Linton High Street to traffic and introduce a contraflow on A1307 Cambridge Road, so that we can safely undertake the work.

## **What changes will there be whilst this work is being undertaken?**

All efforts will be made to keep disruption to a minimum, however there will be a number of necessary changes whilst the works take place. The changes will be as follows:

- Due to the volume of traffic using the A1307 we will need to put in place temporary three-way traffic lights during the works from 9.30am to 3.30pm to ensure safety for road users and construction staff.
- The existing pedestrian crossing will be switched off during the first week of works. A set of temporary crossing lights will be installed for the duration of the works until the new signals are operational.
- There will be a 30mph speed restriction in place on the A1307 Cambridge Road for 100m either side of the junction with Linton High Street. The speed restriction will be in place 24 hours a day for the duration of the works.
- During the four or five nights that the overnight work will take place, a section of Linton High Street will be closed. There will be a contraflow in operation on the A1307 Cambridge Road with a 10mph speed restriction in place. Access to Linton will be maintained by signposted diversion route.
- There will be a signposted diversion via B1052 High Street / Coles Lane / Back Rd / Balsham Rd / B1052 Horseheath Rd / A1307 Cambridge Rd and vice-versa

We are aware that the construction period will affect residents and businesses, as well as people travelling in the area. We would like to apologise for any inconvenience caused.

We are working with our contractors Skanska to minimise disruption where possible. However, these works will deliver improvements to the junction that will benefit both road users and pedestrians.

## **How do I keep up to date with the project?**

You can keep up to date with the project by visiting our web page:

[www.greatercambridge.org.uk/A1307](http://www.greatercambridge.org.uk/A1307)

If you have any concerns specific to construction, please contact Skanska's project team on [A1307schemes@skanska.co.uk](mailto:A1307schemes@skanska.co.uk) or telephone their 24-hour contact centre on 0330 105 1980.

In the meantime, if you have any questions about the project in general, please do not hesitate to get in touch using the details at the top of the letter.

Yours sincerely,

**Paul Hinsley**  
**Project Manager**  
**The Greater Cambridge Partnership**
